NEW Products!

Lip Balm Containers

SKS Bottle & Packaging Inc. has some of the most appealing lip balm packaging containers, for you to package all of your lip balm creations. We have a wide selection of lip balm jars, pots, tubes, tins, and roll on containers. These are all available in a variety of shapes, sizes, colors, and materials. The lip balm jars and pots come in clear, white, blue, and black plastic, all of which come with various tops from solid colors to clear view top caps. We have deep dish and flat metal lip balm tins with caps, along with natural and white plastic lip balm tubes. We also carry lip balm roll on containers. If your looking to package a lip balm which saves dry parched lips, or if your product adds a bit of color or shine to someone's smile, we've got the packaging containers you need!

The white lip balm tubes are available in two shapes, oval and round, both of which come in a .15 oz size. The round lip balm tube also comes in a larger.5 oz size, making it a great packaging choice for solid sunscreens, perfumes, cosmetics, insect repellent, and much more. You also have the option of adding drawstrings to the lip balm tubes. They make for an excellent product for joggers, runners, skiers, and the outdoor type. The drawstring with lip balm tube attached can be draped around your neck, or tied to your wrist or belt loop for quick

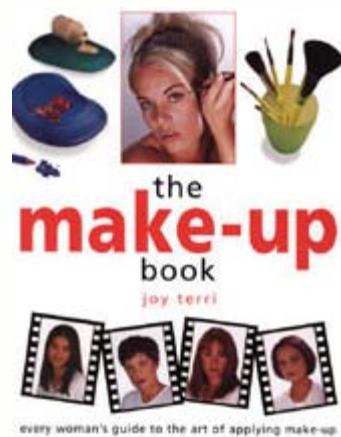

access. Similar to the white lip balm tube line, we also carry a natural lip balm tube line. The natural plastic lip balm tubes are available in .15 oz oval tubes, .07 oz slim line tubes, and .15 oz round tubes, all of which come with caps. The natural plastic of these lip balm tubes allows for the color of you lip products to show through.

If a roll on lip balm is what your searching for, we have either plastic or glass options for you to choose from. The .35 oz glass

SKS Books

The Make-Up Book

Most women use makeup every day, but few are completely satisfied with the result--or enjoy the full beauty benefits of a perfect application. A professional make-up artist gives you the tricks of the trade for flawlessly accentuating facial features and creating dynamic illusions. Know exactly what to look for in necessary tools--sponges, powder puffs, eyelash curlers, tweezers, and brushes--and identifying colors just for you. Glamorous close-up photos of models of all ages guide you through each step of application. First achieve the ideal eyebrow shape for your face. Mix and apply foundation to highlight and shade. Cover up dark rings and blemishes with concealer. Add powder. Define eyes, cheeks, lips--and voila you're gorgeous! Color charts are accompanied by candid recommendations so you're sure always to look your best.

Packaging Tip

lip balm roll on containers are available in a variety of colors with many colorful cap options. Choose from clear, frosted, blue frosted, and green frosted glass lip balm roll ons. Cap color

Shrink Bands

Protect Your Products with Shrink Bands!

options include, black, gold, silver, white, and brushed metal silver caps. The 1/4 oz white plastic lip balm roll on containers are also a great choice and are available with your choice of a flat or round white plastic cap. You can also try using these roll on containers to house your favorite perfumes! Our extensive line of lip balm jars and pots range in size, color, shape, and material. Show off your colorful lip balm creations by choosing the clear polystyrene plastic jars, available in 1/8 oz and 1/4 oz sizes which come topped with polystyrene dome closures. These lip balm jars are a great way to display your homemade lip balms.

We also carry three white polypro lip balm jars in 1/8 oz, 1/4 oz, and 1/5 oz sizes. The 1/8 oz and 1/4 oz sizes are thick wall jars accompanied by white polypro F217 lined caps. The 1/8 oz and 1/4 oz lip balm jars are also available with shrink bands, offering your customer a tamper evident container! The 1/5 oz white polypro plastic lip balm jars are offered with unlined white polypro dome caps. The jar and dome cap has an overall height of 1" with a diameter of 1" making for an excellent sample jar.

Make your products tamper evident by applying a heat sealable shrink band to your container! The PVC shrink bands are a great way to add value to your products. This is of special interest to consumers who are purchasing food type products, aromatherapy or personal care products, cosmetics, toiletries, and more. The shrink bands are made of clear pvc plastic, are 2 mm thick, and contain a vertical perforation for easy removal. Once the band has been removed it cannot be re-applied to the container. We also sell a heat gun to speed up the shrink band application process. Simply slide the shrink band over your packaging container, and be sure both ends extend the top and bottom of your product. Proceed to gradually direct the heat from the heat gun on the shrink band causing it to shrink to fit your product. (Be sure not to direct high heat to products, this may cause shrink bands to melt and may damage product).

If your looking to display your product with a special packaging container, try using the white or black lip balm jars with clear view top caps. The black and white clear view top lip balm containers are available in a 1/2 oz or 1/4 oz size, making them the perfect size for storing in your pocket or purse. The white lip balm containers are also available in a 1/4 oz size in solid white. These elegant packaging containers could be just what you have been looking for to package all of your cosmetic products from lip balms, to pancake makeup, eye shadows and salves.

Another great lip balm jar is the 1/2 oz blue cobalt PET jars. These elegant lip balm jars come topped with a smooth polypro flat top cap in your choice of white or black .

We carry flat metal and deep dish lip balm tins all of which come with slip cover lids. The flat metal lip balm tins come in 1/4 oz and 1/2 oz sizes, and the deep dish tin is available in a 1 oz size. The metal lip balm tins are easy to fill and even easier to use, and are a great way to help make a fun and attractive product for your customers !

When choosing a lip balm packaging container for your product we suggest that you test the container with your product for compatibility, as always this step is important in providing the best-suited product for you and your customers needs.

Aside from the shrink bands listed on our site, we also have the capability to have shrink bands produced with your product sku number, product number, logo and more.
