NEW PRODUCTS

Visit our website for new products! We are continuously updating our site to include new items of interest. Our latest and growing popular addition has been the various silver closures. They are available for the blue cobalt, amber and clear glass and plastic bottles and jars. These aluminum closures are available in sizes from 18/415 to 89/400, and can be purchased in bulk quantities for your best discount. We also have 24/410 disc top closures in the silver metal finish. These attractive closures can enhance any product to create a new look of elegance and classic appeal. For items that you would like to see added to our website please email your suggestions to us at comments@sksbottle.com.

SKS SPECIALS

Visit us at <http://www.sks-bottle.com/340c/MonthSpecial.html> to see our latest updates on overstocks and discounted items. We are constantly adding to this list of specials. A few great specials include our low price on the .15 oz lip balm container and closure for just .15 each. We also have some great 1.5 oz spice containers with caps for just .20 each. Add to your hobby room or product line these great-assorted vials for just .05 each. They are great for storing small supplies or around the shop. Don't forget you get additional quantity discounts off your order total so the specials don't just end with this page. You should definitely check out this section and stay tuned to upcoming events, new items and the latest

SKS Bottle & Packaging, Inc., is happy to announce its inclusion in **Body Care Basics Magazine**. This magazine is filled with creative gift ideas and recipes on home made bath and body projects along with tips from SKS on packaging your handmade creation. You can purchase a copy of this magazine at our web store at www.sks-bottle.com. Copies are limited, so don't miss out on your copy by ordering now.

PACKAGING TIPS:

Product compatibility is an important element when considering what container to use. You should consider the choice to be one that will not react over time with your ingredients. Testing for product compatibility should be performed to ensure that your package is suitable for your product.
